

**NUMB:**

**VS:**

Turning myself inside out  
Cut me down while I'm crying out for help  
Can you hear the echo say

All is fine and all is well  
But you don't hear how those words felt to me,  
It's nothing but misery

**PC:**

I can't stand it  
The cuts run too deep.  
Look what it's done to me.  
So I'll just bleed out, I can't feel now  
All the scars are leaving me...

**CHORUS:**

Numb  
All I feel is numb  
Look what I've become  
no, I don't feel a thing.

Oh I am numb  
My hearts too tired to run  
Can't you see what I've become?  
no I don't feel a thing, I don't feel a thing.

**VS2:**

Not scared to be alone anymore  
Better to run than to have you fight with me.  
It's nothing but misery.

**PC:**

The wounds are open  
My heart is broken.  
Still I can't feel the pain.  
Know I am....

**CHORUS**

Numb  
All I feel is numb  
Look what I've become  
no, I don't feel a thing.

Oh I am numb  
My hearts too tired to run  
Can't you see what I've become?  
no I don't feel a thing, I don't feel a thing.

**BREAKDOWN:**

Numb  
All I feel is  
Numb  
I don't feel a thing

**CHORUS**

Numb  
All I feel is numb  
Look what I've become  
no, I don't feel a thing.

Oh I am numb  
My hearts too tired to run  
Can't you see what I've become?  
no I don't feel a thing, I don't feel a thing.

**OUT:**

Turning myself inside out  
Cut me down while I'm crying out for help  
Can you hear the echo say
